

Ceylin Terzioğlu

Summary

Born and raised in Turkey, currently based in Istanbul, I am a passionate and dedicated designer with a deep-rooted love for art and fashion. Since childhood, I have been immersed in the world of drawing, constantly refining my skills and expressing my creativity through illustration. My journey in design began with fashion, where I have been devoted to creating collections and sketching garments, driven by an unwavering commitment to craftsmanship and aesthetics.

Beyond fashion, I am equally drawn to jewelry design, aiming to merge my expertise in apparel with my growing passion for accessories. My interest also extends to serigraphy, allowing me to experiment with unique artistic techniques and expand my creative scope. Hardworking and detail-oriented, I am continuously striving to evolve as a designer, blending artistic vision with technical proficiency to bring innovative concepts to life.
